Here you will find links to all of our perimeter worksheets Perimeter worksheets hub page contains links to other Math webpages where you will find a range of activities and resources. If you can't find what you are looking for, try searching the Google search box at the top of each page. On this webpage you will find our range of worksheets to help your child learn to work out the perimeter of a range of rectangles. These sheets are graded from easiest to hardest, and each sheet comes complete with answers. Using these sheets will help your child to: understand what perimeter (and area) of a rectangle; know how to find the perimeter (and area) of a rectangle (and area) of a know the perimeter. If you are feeling a little confused by the word 'perimeter is and how to find the perimeter of some simples shapes through worked examples. What does perimeter mean? Try out the app produced by PhET Interactive Simulations from the University of Colorado. It is a great way of exploring area and perimeter in a fun and engaging way. We have also created a few challenges that can be used alongside the app. Area and Perimeter in a fun and engaging way. also have sheets where the perimeter is given, and the length of one of the sides needs to be found. These sheets involving finding the missing side length where the perimeter is given, and the length of one of the sides needs to be found. These sheets involving finding the missing side length where the perimeter is given. This page contains worksheets with a range of 2ds and 1 length of one side is given. shapes. There are sets of regular shapes, rectangles and other 2d shapes. They are aimed at 4th and 5th grade. This page will help you to find the perimeter of a range of rhombuses. We have lots of worked examples of finding the perimeter of a range of rhombuses. There are simple sheets involving multiplying side lengths by 4, as well as much more complicated versions that have the perpendicular width and height given and need pythagoras' theorem to find the length of the sides. Perimeter of Rhombus Support page This page will help you find the perimeter of right triangles, and also sheets involving using pythagoras' theorem to find the missing side length and then the perimeter of a circle (and semi-circle) word problems. Perimeter of a Semi-Circle Take a look at some more of our worksheets similar to these. Here is our selection of free printable area worksheets for 3rd and 4th graded in order from easiest to hardest. Using these sheets will help your child to: work out the area of rectalinear shapes. All the sheets in this section support Elementary Math Benchmarks. How to Print or Save these sheets Need help with printing or saving?
